

PhotoContest2012

By Dennis Spear

8th Annual PhotoContest

As with past photo contests, N magazine receives unique images taken by amateur photographers from our region. This year is no exception as you can see by the pictures on these pages.

Our winner was Ebers Garcia and you can see his image on our cover along with a profile on page 6.

Some entrants have been sending for multiple years and their

images, while not chosen for the cover, have had a real impact on these pages. N magazine appreciates all who sent images that show the creativity of our region. It's nice to see that there is still an appreciation of the impact of black and white images in this age of digital color.

Learn more about our professional judges in the editorial comment on page 5 of this issue.
